Dear Representatives Fitzpatrick and Moulton:

On behalf of tens of thousands of people with disabilities, including veterans, SourceAmerica commends your important bipartisan work in addressing healthcare disparities faced by people with intellectual and developmental disabilities (I/DD). Since this population is likely to experience poorer health outcomes and shorter lifespans, we recognize the importance of bridging the gap and improving access to healthcare.

By designating the I/DD population as Medically Underserved Population, we believe that H.R. 3409, the HEADs UP Act takes the decisive step forward toward increasing the quality of healthcare this population receives, and as a result will directly improve their quality of life. For this reason, SourceAmerica endorses this important bipartisan legislation.

Thank you for your leadership and your continued commitment to improving the lives of people with disabilities.

Sincerely,
